Graduation: June 2026

SUMMARY

Third-year Computer Science student with confidence in building full-stack applications using **Java**, **Python**, **Spring Boot**, **AWS**, **Docker** and **React**. Passionate about software development and cloud infrastructure, with multiple personal projects deployed using real-world tech-stacks.

EDUCATION

2023 - Present: BSc Computer Science, University of Greenwich

1st Year: **82%** | 2nd Year: **80%** (Predicted First-Class Honours)

2021 - 2023: Blackfen School for Girls (Coed Sixth form)

- A Level: Psychology (B), Business (B)
- BTEC: Science (Distinction*)
- EPQ: "Will AI surpass human intelligence?"

Certifications

- AWS Cloud Practitioner

PERSONAL PROJECTS

Nimbus (Cloud File Storage App)

Spring Boot, React, AWS, Java, JavaScript, Tailwind CSS, HTML

- Created an **AWS-hosted full-stack cloud storage website** with a Spring REST API backend where users can upload, retrieve, or delete files from an S3 bucket at any time.
- Implemented Spring Boot, RESTful APIs, JSON Web Tokens, Hashing and AWS PostgreSQL / EC2 / S3.

BloodSend (Blood Donor Matching Platform)

Express.js, MongoDB, JavaScript, HTML, CSS

- Built a **full-stack website** which helps blood seeking patients and blood donors connect. Includes account creation, distance-based donor search, blood type filtering, and REST API endpoints.
- Learned about databases and data handling, API endpoints, middleware, HTTP requests, routers and sessions.

Posture Checker (Posture Reminder Chrome Extension)

jQuery, JavaScript, HTML, CSS

- Created a Chrome extension "Posture Checker" which has attracted **50+ weekly active users** organically.

AI Calendar Agent (AI Agent for Google Calendar)

Python

- Developed a **voice-controlled AI agent** for the 2025 **Encode Hackathon** that plans and manages Google Calendar

events.

- The AI intelligently chooses the appropriate tools needed, clarify ambiguities with the user, and confirms plans before execution.

WORK EXPERIENCE

Sept 2023 - Present: Sales Assistant, Lidl, Belvedere

- Part-time work as part of a team of dedicated staff to run the shop, managing stock inventory and serving customers.
- Developed public speaking skills and ability to explain information to different audiences, whilst maintaining an approachable and professional manner.

Aug 2021 - Feb 2023: Front of House Staff, Greene King, The William Camden

- Part-time role collecting glasses, dishes, cleaning tables, and waiting food at a local pub.
- Built on my customer service skills and ability to handle long shifts, forming an important foundation for the experience I have gained during my time at Lidl.

OTHER EXPERIENCE

- I am a Student Representative for Computer Science at my university.
- I previously freelanced modelling maps and designing UI for game developers on Roblox.
- I was awarded a golden tie for outstanding achievement in science during my GCSE studies.
- In Sixth form I was awarded a trophy for going above and beyond during my studies.
- During Sixth Form I managed a science club, running revision sessions and experiments for GCSE pupils.
- I obtained a brown belt in a Bushido martial arts club after 11 years of training.
- I have a Full UK drivers licence.

TECHNICAL SKILLS

- Languages: Java, TypeScript, Python, SQL
- Frameworks & Tools: Spring Boot, React, Node.js, Express, Docker, Git
- Cloud & Infrastructure: AWS, PostgreSQL, MongoDB
